

BIG BOXES WITH HINGE LID BBG 1210R SA

For extra convenience

AUER Packaging's big box with hinge lid (SA) combines all the advantages of the big box series with a functional hinge which is mounted on the lid and on one of the long sides of the box. The lid opens to more than 90 degrees, which makes loading and unloading the box especially easy.

- Locks in place centrally at 95°
- Especially sturdy
- Very convenient to use
- Hinge also available on its own

DETAILS

Inner dimensions L x W x H	111 x 91 x 61 cm	Volume	670 liter
Design	Base and sides closed 4 steering castors without wheel stop Wheels and screws are delivered - for self-assembly 2 fixing hinges SA with lid	Note	Do not fill with liquids
Material	1 A new material HD-PE	Colour	Base: silver grey similar RAL 7001 Feet: traffic black similar RAL 9017

Identified risks and safety information

The following potential risks have been identified when using the product:

- Material breakage due to overloading or incorrect handling with an associated risk of cuts*¹
- Risk of injury due to improper handling or heavy lifting
- Risk of slipping on uneven or wet surfaces
- Risk of crushing or pinching fingers and hands*²

Measures for minimising risk

To minimise the risks mentioned, the following safety measures should be observed:

- Always observe the maximum load limit of the product. If this is not specified in the product details, it should be evaluated independently.
- Use suitable lifting and transport equipment.
- Ensure that the product is placed on a stable and level surface.

Material and recycling information

The product is made of recyclable HD-PE and should be disposed of in accordance with local recycling guidelines.

*¹ Appendix: Risk of cuts

Overloading or damage to the material can result in sharp edges that pose a risk of cuts. To minimise this risk, the following precautions should be taken:

- Never exceed the maximum load limit.
- Check the product regularly for signs of damage or cracks and do not use it if such defects are present.
- Wear suitable protective gloves when handling the damaged product to protect your hands from sharp edges.

*² Appendix: Crush risk

There is a risk of crushing or trapping fingers and hands when using the product, especially when stacking, folding or unfolding the product. This risk increases if the product is operated improperly or hastily. To reduce this risk, the following measures should be observed:

- Keep your hands and fingers away from the stacking, folding or collapsing mechanisms while handling the product.
- Carry out all movements slowly and in a controlled manner to prevent the product from closing unintentionally.
- If necessary, use suitable protective gloves to provide additional protection for your hands.
