

## Declaration of Conformity in accordance with Regulation (EU) 2025/40 (PPWR)

### 1. Manufacturer

#### AUER GmbH

Am Kroit 25/27

83123 Amerang - Germany

### 2. Product Identification

|                                                            |                                                   |
|------------------------------------------------------------|---------------------------------------------------|
| <b>Product</b>                                             | Big boxes with SA/SV locking system               |
| <b>Type</b>                                                | BBG 1208R SASV                                    |
| <b>Outer dimensions (without locking system) L x W x H</b> | 120 x 80 x 96 cm                                  |
| <b>Inner dimensions L x W x H</b>                          | 111 x 71 x 61 cm                                  |
| <b>Material</b>                                            | Multiple components – see material specifications |
| <b>Volume</b>                                              | 535 liter                                         |
| <b>Weight</b>                                              | 41.63 kg                                          |
| <b>Purpose</b>                                             | Reusable transport and storage containers         |

### 3. Declaration of Conformity

It is hereby declared that the reusable plastic container described above complies with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), insofar as these apply to the product.

The container has been designed, in terms of its construction and the materials used, in such a way that:

- it can be reused multiple times
- a high level of mechanical strength is achieved
- reusability is supported
- the recyclability of the material used is guaranteed
- the amount of material is limited to what is required to fulfil its functional requirements

#### 4. Material specifications

| Component                                 | Material                                            | SKU         |
|-------------------------------------------|-----------------------------------------------------|-------------|
| Base                                      | High-Density Polyethylene (HD-PE)                   | GK-BBG 1208 |
| Feet                                      | High-Density Polyethylene Recycled material (HD-PE) | FU-L BB     |
| Feet                                      | High-Density Polyethylene Recycled material (HD-PE) | FU-R BB     |
| Lid                                       | High-Density Polyethylene (HD-PE)                   | DE 1208 BB  |
| Hinges for SA                             | Thermoplastic elastomer (TPE)                       | 12509       |
| Kotflügelscheibe 15 x 5,3 x 1,25, DIN 522 | Thermoplastic elastomer (TPE)                       | 04115 15    |
| Blindniete Setzkopf 4,8 x 17 x 16         | Thermoplastic elastomer (TPE)                       | BN 4,8x17   |
| Toggle-type fastener for SV               | Thermoplastic elastomer (TPE)                       | 12510       |
| Clamp for SV                              | Thermoplastic elastomer (TPE)                       | 12514       |
|                                           | FOR                                                 | HK-SASV     |
| Spax-Schraube 5x30-T20                    | FE                                                  | SFK 5x30    |
| Countersunk-head screw KN1041 plastic     | FE                                                  | SSK 8x25-K  |
| Recyclability                             | 100% recyclable                                     |             |
| Rating                                    | Recycling Class A                                   |             |

#### 5. Reuse

The container is designed as a durable, reusable container for storage, transport and internal logistics processes. These characteristics meet the requirements for reusable packaging as set out in the PPWR.

#### 6. Compliance with material requirements

| Requirements             | Status                  |
|--------------------------|-------------------------|
| Heavy metals (<100 ppm)  | fulfilled               |
| REACH (EG Nr. 1907/2006) | fulfilled               |
| PFAS*                    | not added intentionally |

\*The materials used comply with the relevant requirements for plastics intended to come into contact with food. To the best of our knowledge, no per- and polyfluoroalkyl substances (PFAS) are intentionally added, insofar as this is relevant to the intended use.

#### 7. Minimising the amount of packaging

| Requirements                | Status                                                     |
|-----------------------------|------------------------------------------------------------|
| Optimised volume and weight | fulfilled Design optimised for materials and functionality |

#### 8. Applicable legal basis

Regulation (EU) 2025/40 on packaging and packaging waste (PPWR)

Regulation (EC) No 1907/2006 (REACH), where applicable

POPs Regulation (EU) 2019/1021

Regulation (EU) No 10/2011

Consumer product within the meaning of Section 2(6)(1) of the German Food, Consumer Products and Animal Feed Code (LFGB)

#### **9. Technical documentation**

The technical documentation, material certificates, test reports and any available certificates and declarations of conformity are maintained in accordance with the applicable legal requirements and made available to the relevant authorities or authorised bodies upon request.

#### **10. Place and date of the exhibition**

Amerang, 08.10.2026

#### **11. Name and position of the signatory**

Sergej Andert, Managing Director
