

## Declaration of Conformity in accordance with Regulation (EU) 2025/40 (PPWR)

### 1. Manufacturer

#### AUER GmbH

Am Kroit 25/27

83123 Amerang - Germany

### 2. Product Identification

|                            |                                                   |
|----------------------------|---------------------------------------------------|
| Product                    | Foldable ESD-KLT boxes                            |
| Type                       | ESD F-KLT 6410                                    |
| Outer dimensions L x W x H | 60 x 40 x 28 cm                                   |
| Volume                     | 46 liter                                          |
| Material                   | Multiple components – see material specifications |
| Weight                     | 3.9 kg                                            |
| Purpose                    | Reusable transport and storage containers         |

### 3. Declaration of Conformity

It is hereby declared that the reusable plastic container described above complies with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), insofar as these apply to the product.

The container has been designed, in terms of its construction and the materials used, in such a way that:

- it can be reused multiple times
- a high level of mechanical strength is achieved
- reusability is supported
- the recyclability of the material used is guaranteed
- the amount of material is limited to what is required to fulfil its functional requirements

#### 4. Material specifications

| Component                                             | Material                          | SKU                      |
|-------------------------------------------------------|-----------------------------------|--------------------------|
| Montagestifte für Faltbox<br>Kleinladungsträger       | High-Density Polyethylene (HD-PE) | ST F-KLT                 |
| ESD-Stirnwand glatt F-KLT 6410                        | Polypropylene (PP)                | ESD STW G F-KLT 6410     |
| ESD-Stirnwand Tasche F-KLT 6410                       | Polypropylene (PP)                | ESD STW T F-KLT 6410     |
| ESD-Seitenwand oben Rohteil F-KLT 6410                | Polypropylene (PP)                | ESD RT SEW O F-KLT 6410  |
| ESD-Seitenwand unten glatt Rohteil F-KLT 6410         | Polypropylene (PP)                | ESD RT SEW UG F-KLT 6410 |

| ESD-Rahmen F-KLT 6410                                 | Polypropylene (PP)                | ESD RA F-KLT 6410        |
| ESD-Boden F-KLT 6410                                  | Polypropylene (PP)                | ESD BO F-KLT 6410        |
| Recyclability                                         | 100% recyclable                   |                          |
| Rating                                                | Recycling Class A                 |                          |

#### 5. Reuse

The container is designed as a durable, reusable container for storage, transport and internal logistics processes. These characteristics meet the requirements for reusable packaging as set out in the PPWR.

#### 6. Compliance with material requirements

| Requirements             | Status                                      |
|--------------------------|---------------------------------------------|
| Heavy metals (<100 ppm)  | fulfilled                                   |
| REACH (EG Nr. 1907/2006) | fulfilled                                   |
| PFAS*                    | Not relevant; not suitable for food contact |

\*To the best of our knowledge, no per- and polyfluoroalkyl substances (PFAS) are intentionally added to the materials used. The product is not intended for direct contact with food.

#### 7. Minimising the amount of packaging

| Requirements                | Status                                                     |
|-----------------------------|------------------------------------------------------------|
| Optimised volume and weight | fulfilled Design optimised for materials and functionality |

#### 8. Applicable legal basis

Regulation (EU) 2025/40 on packaging and packaging waste (PPWR)  
Regulation (EC) No 1907/2006 (REACH), where applicable  
POPs Regulation (EU) 2019/1021

**9. Technical documentation**

The technical documentation, material certificates, test reports and any available certificates and declarations of conformity are maintained in accordance with the applicable legal requirements and made available to the relevant authorities or authorised bodies upon request.

**10. Place and date of the exhibition**

Amerang, 08.10.2026

**11. Name and position of the signatory**

Sergej Andert, Managing Director
