

## Declaration of Conformity in accordance with Regulation (EU) 2025/40 (PPWR)

### 1. Manufacturer

#### AUER GmbH

Am Kroit 25/27

83123 Amerang - Germany

### 2. Product Identification

|                                   |                                                   |
|-----------------------------------|---------------------------------------------------|
| <b>Product</b>                    | Foldable large load carriers                      |
| <b>Type</b>                       | GLT 1210/125RB                                    |
| <b>Outer dimensions L x W x H</b> | 120 x 100 x 122 cm                                |
| <b>Inner dimensions L x W x H</b> | 111 x 91 x 103 cm                                 |
| <b>Material</b>                   | Multiple components – see material specifications |
| <b>Volume</b>                     | 1,000 liter                                       |
| <b>Weight</b>                     | 73.35 kg                                          |
| <b>Purpose</b>                    | Reusable transport and storage containers         |

### 3. Declaration of Conformity

It is hereby declared that the reusable plastic container described above complies with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), insofar as these apply to the product.

The container has been designed, in terms of its construction and the materials used, in such a way that:

- it can be reused multiple times
- a high level of mechanical strength is achieved
- reusability is supported
- the recyclability of the material used is guaranteed
- the amount of material is limited to what is required to fulfil its functional requirements

#### 4. Material specifications

| Component                             | Material                                            | SKU        |
|---------------------------------------|-----------------------------------------------------|------------|
| Base                                  | High-Density Polyethylene (HD-PE)                   | GKG-1210   |
| Feet                                  | High-Density Polyethylene Recycled material (HD-PE) | FU-L BB    |
| Feet                                  | High-Density Polyethylene Recycled material (HD-PE) | FU-R BB    |
| Front wall base body GLT 1210         | High-Density Polyethylene (HD-PE)                   | GLT121003  |
| Plug-in hinge, left front wall        | High-Density Polyethylene (HD-PE)                   | KL120007   |
| Plug-in hinge, right front wall       | High-Density Polyethylene (HD-PE)                   | KL120008   |
| Plug-in hinge, centre front wall      | High-Density Polyethylene (HD-PE)                   | KL120009   |
| Slide lock IBC 500 and 1000           | Acrylonitrile-butadiene-styrene copolymer (ABS)     | SR-IBC51   |
| Side wall base body for GLT 1210      | High-Density Polyethylene (HD-PE)                   | GLT121002  |
| Inserted hinge, left, side wall       | High-Density Polyethylene (HD-PE)                   | KL120004   |
| Inserted hinge, right, side wall      | High-Density Polyethylene (HD-PE)                   | KL120005   |
| Inserted hinge, centre, side wall     | High-Density Polyethylene (HD-PE)                   | KL120006   |
| Locking bolt                          | High-Density Polyethylene (HD-PE)                   | KL120012   |
| Locking bolt                          | High-Density Polyethylene (HD-PE)                   | KL120013   |
| Countersunk-head screw KN1041 plastic | FE                                                  | SSK 8x25-K |
| Recyclability                         | 100% recyclable                                     |            |
| Rating                                | Recycling Class A                                   |            |

#### 5. Reuse

The container is designed as a durable, reusable container for storage, transport and internal logistics processes. These characteristics meet the requirements for reusable packaging as set out in the PPWR.

#### 6. Compliance with material requirements

| Requirements             | Status                                      |
|--------------------------|---------------------------------------------|
| Heavy metals (<100 ppm)  | fulfilled                                   |
| REACH (EG Nr. 1907/2006) | fulfilled                                   |
| PFAS*                    | Not relevant; not suitable for food contact |

\*To the best of our knowledge, no per- and polyfluoroalkyl substances (PFAS) are intentionally added to the materials used. The product is not intended for direct contact with food.

#### 7. Minimising the amount of packaging

| Requirements                | Status                                                     |
|-----------------------------|------------------------------------------------------------|
| Optimised volume and weight | fulfilled Design optimised for materials and functionality |

#### **8. Applicable legal basis**

Regulation (EU) 2025/40 on packaging and packaging waste (PPWR)

Regulation (EC) No 1907/2006 (REACH), where applicable

POPs Regulation (EU) 2019/1021

#### **9. Technical documentation**

The technical documentation, material certificates, test reports and any available certificates and declarations of conformity are maintained in accordance with the applicable legal requirements and made available to the relevant authorities or authorised bodies upon request.

#### **10. Place and date of the exhibition**

Amerang, 08.10.2026

#### **11. Name and position of the signatory**

Sergej Andert, Managing Director
