i-CON TRACE
The world's most connected
soldering station.

GLOBAL. AHEAD. SUSTAINABLE.

**PREMIUM
PERFORMANCE.**

**MINIMUM
COST.**

THE MISSING LINK

CONNECTIVITY

Fully connected and traceable hand soldering process.

- WLAN and expandable network card
- Trace all process parameters including
 - » temperature, board, dwell time, solder wire, flux and more.

With the Ersas TRACE Cockpit you define and document your soldering tasks

GREEN MEANS GO!

USABILITY

Intuitive communication with user. Decreasing the error rate by maximizing the focus on the soldering task. All necessary information in three colors.

READY

- Ready for soldering
- Standby
- Heating up

Smart operation with the Ersas TRACE App

PERFORMANCE

Up to 30 % more soldering performance

- Fast heating up and even faster reheating
- Saving resources
 - » Easy soldering tip change
 - » Long-life heating element
