i-CON VARIO 4 MK2

Multichannel soldering and desoldering station

The **i-CON VARIO 4 MK2** multichannel soldering and desoldering station meets the highest requirements in professional soldering and desoldering in every field of professional electronic manufacturing – including ESD protected zones. The high-end version of the i-CON family is based on the i-CON VARIO 2 MK2 and is the only soldering station in the world to provide the user with four soldering tools at the same time for demanding soldering tasks.

All functions, including the generation of hot air and vacuum, are bundled in the supply unit of the i-CON VARIO 4 MK2 which is also equipped with the easy to operate i-OP and its clearly arranged displays. In addition, the station has an interface for a solder fume extraction unit as well as an USB port. Via a microSD memory card the stations can be configured or updated quickly and safely.

The high-performance bushing A2 can be used to operate either the i-TOOL AIR S (200 W) or the i-TOOL HP (250 W).

Connectable tools:

- hot air iron
i-TOOL AIR S (200 W)
- soldering iron
i-TOOL MK2 (150 W)
