

LUXO

# Align

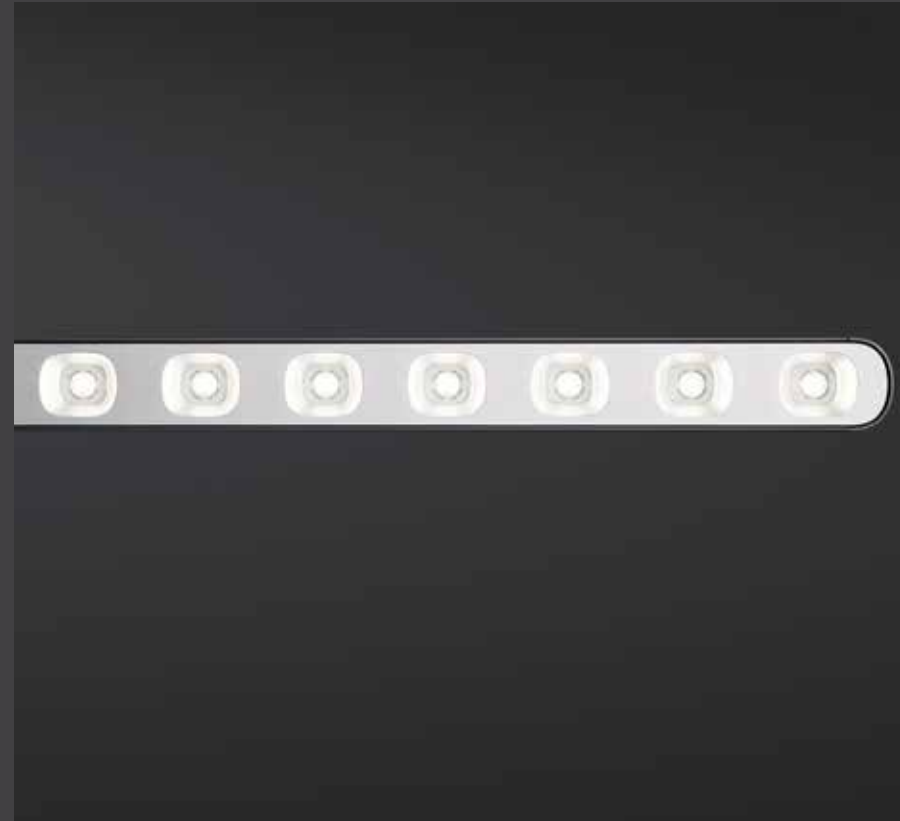

Minimal design – maximum impact

Luxo Align is a family of freestanding luminaires created to complement modern office spaces with clean lines and a refined Scandinavian aesthetic. Its slim, understated design blends seamlessly into a variety of environments, subtly enhancing the overall look. The compact form makes it easy to position – even in tighter layouts – while flexible configurations and intuitive controls support personal comfort and high lighting performance.

## Scandinavian design

Sleek, minimalistic, and easy to integrate into any interior.  
A complete range that covers all lighting needs in the office.

## Flexible office lighting

Freestanding luminaires are flexible, easy to place, and ideal for changing office layouts. They combine general and task lighting with personal control for improved comfort, and support sustainable use through reuse and easy relocation.

## Long life, low impact

Align is energy-efficient, built to last, and designed for reuse through multiple office lifecycles. Manufactured with 75% recycled aluminium, it's a smart choice for reducing environmental impact over time.

## Single-head

For one- or two-desk setups  
One switch and one sensor  
8,000-12,000 lm

## Double-head

For two- or four-desk setups  
A switch and a on each side  
16,000-24,000 lm

## Pendant

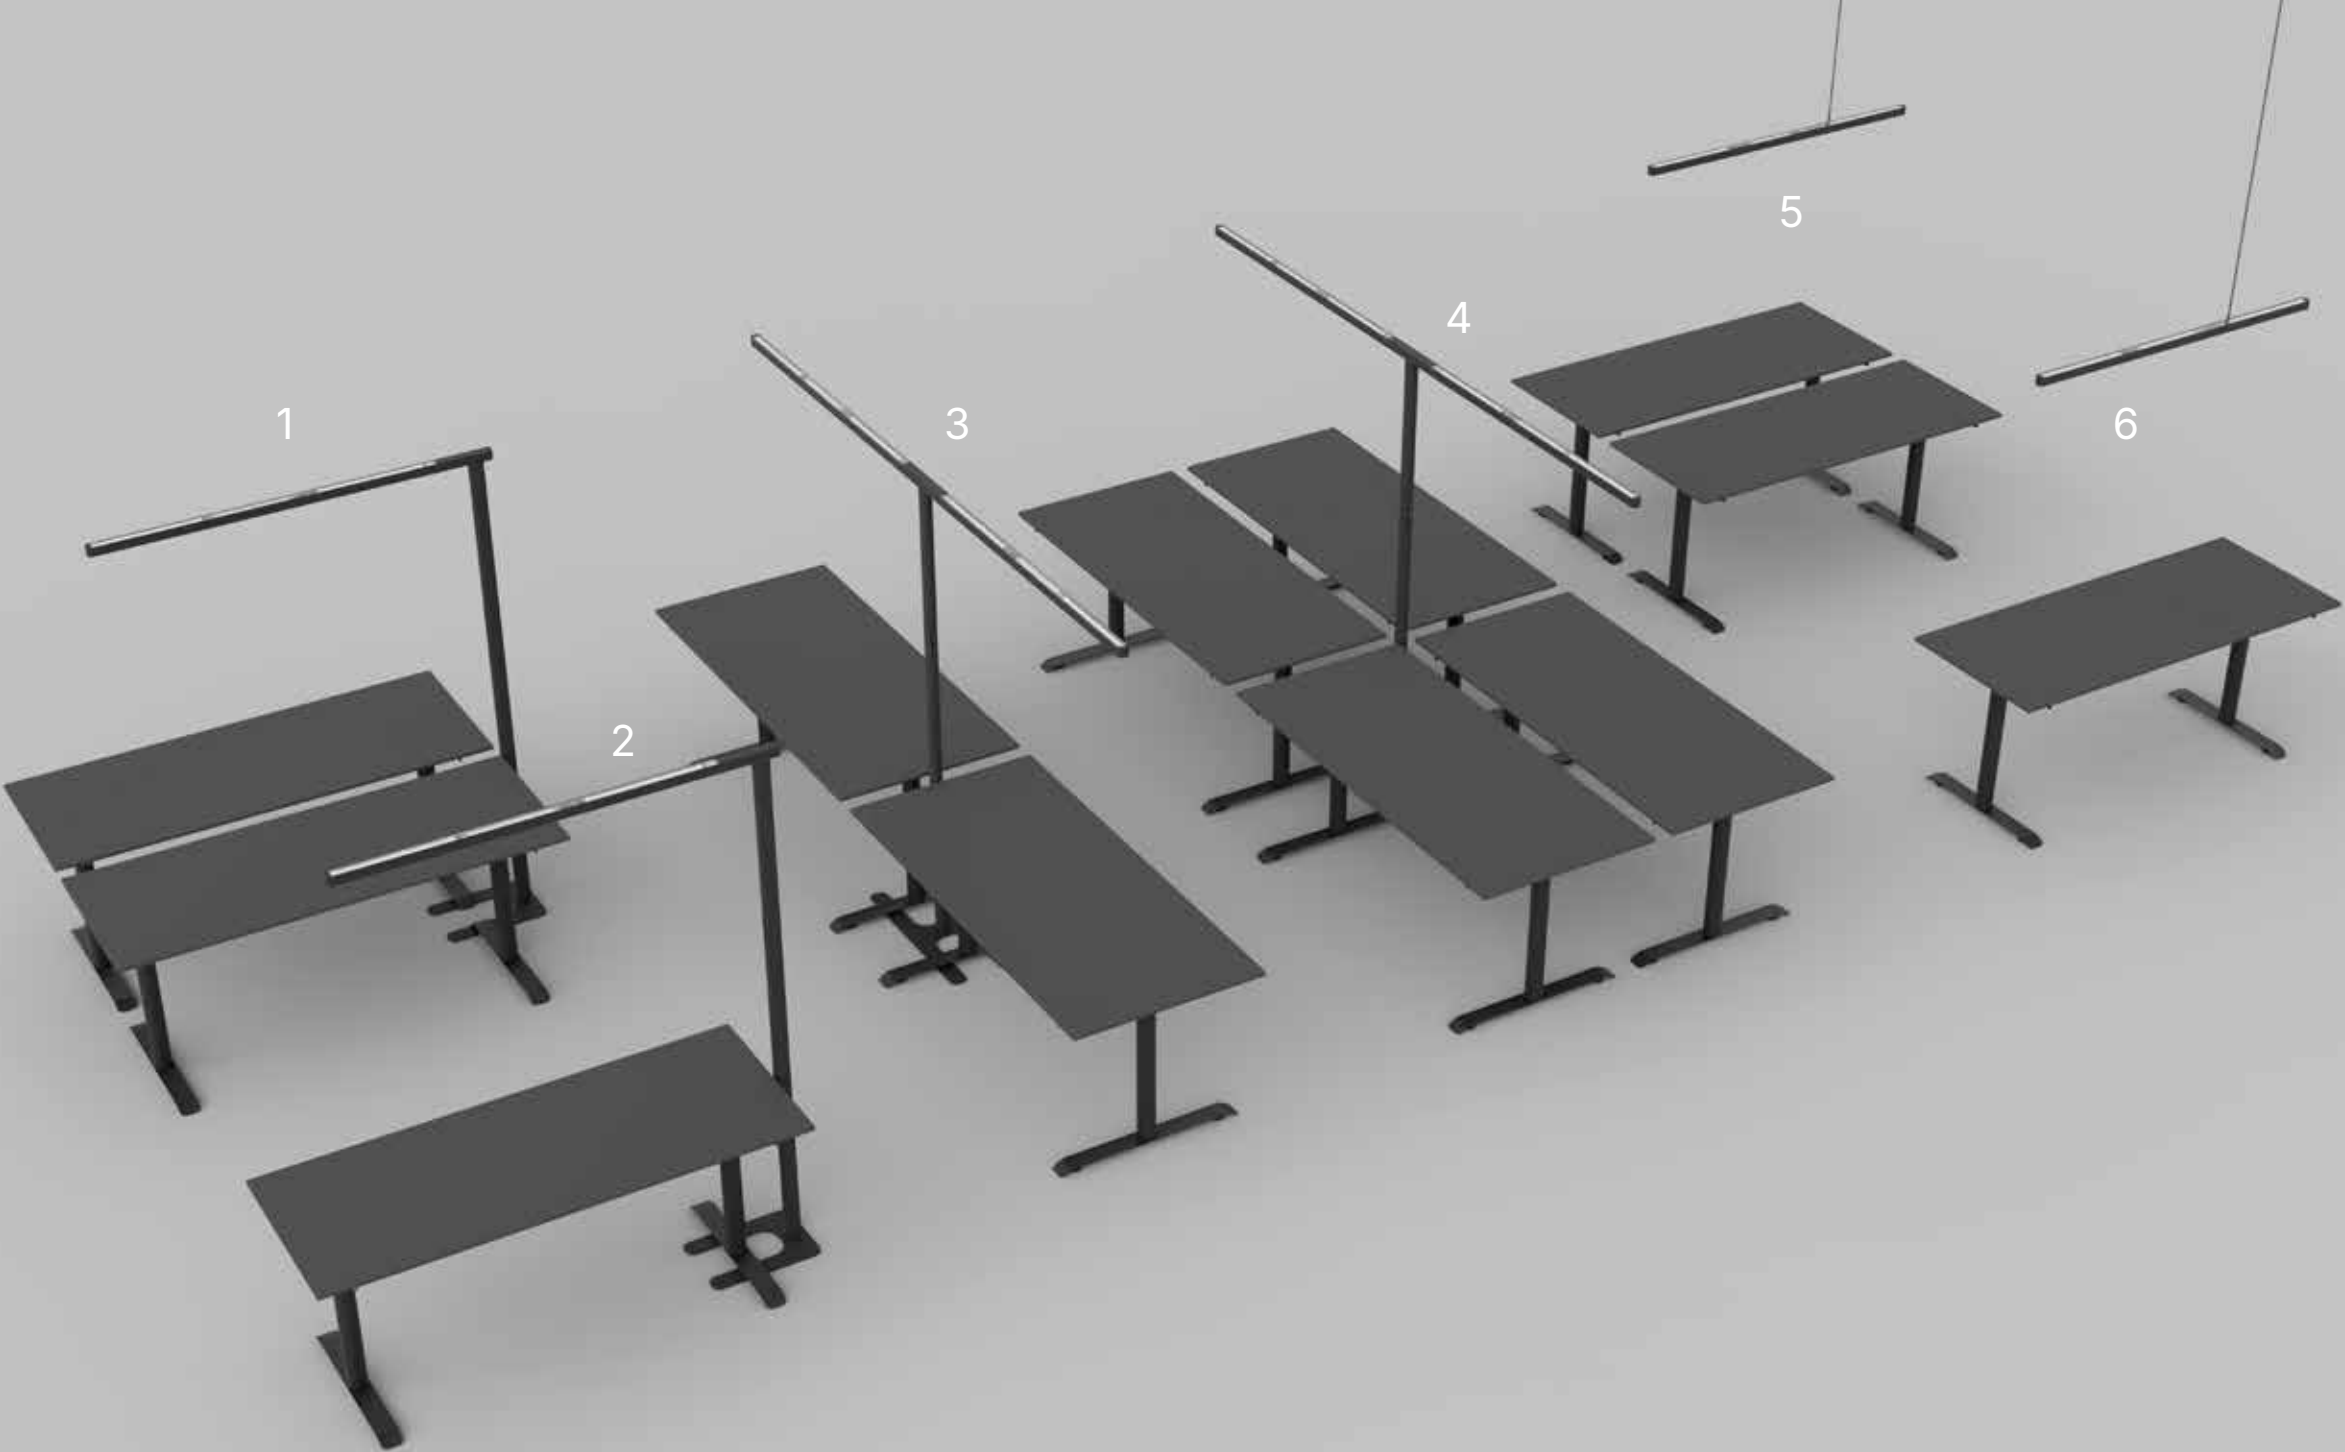

For one- or two-desk setups  
An IR switch for intuitive control  
8,000-12,000 lm

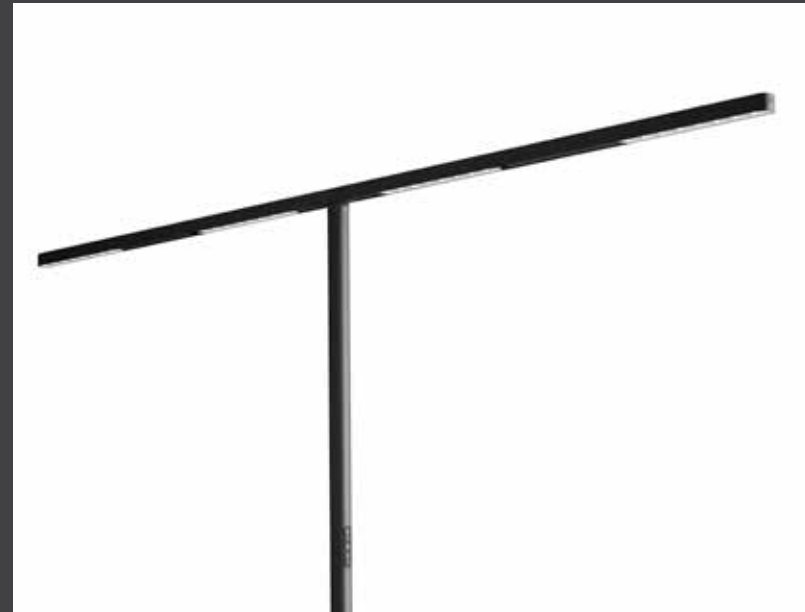

Select your variant

|   |                |             |
|---|----------------|-------------|
| 1 | 2D - 12,000 lm | Single-head |
| 2 | 1D - 8,000 lm  | Single-head |
| 3 | 2D - 16,000 lm | Double-head |
| 4 | 4D - 24,000 lm | Double-head |
| 5 | 2D - 12,000 lm | Pendant     |
| 6 | 1D - 8,000 lm  | Pendant     |

BlackGreyWhite

## Smart lighting control

All models can be equipped with presence sensors and support daylight harvesting to reduce energy consumption when natural light is available. With wireless connectivity, the freestanding luminaires can easily be configured into networks – making this a scalable solution for small setups as well as large installations.

## Intuitive Panels

Free-standing Align luminaires feature an intuitive control panel, allowing easy adjustment of the light level.

## Tunable White

Align can be equipped with Tunable White LED modules, allowing you to adjust the light from a warm, relaxing glow to a cool, focused white, directly on the control panel.

Design: Hans Bleken Rud

Hans Bleken Rud

Hans Bleken Rud is a Norwegian industrial designer. He began his studies at the Art & Design College, and later graduated with a Masters in Industrial Design from the Oslo School of Architecture and Design. His career has mostly been focused towards various projects related to lighting and light design. He has also designed products for the sports, aid charities and aviation industries. Since 2007 he has worked as a professional designer for Glamox.
