

Expander Nut M4, Slot 10, PA Gray - Bosch Rexroth 3842554774

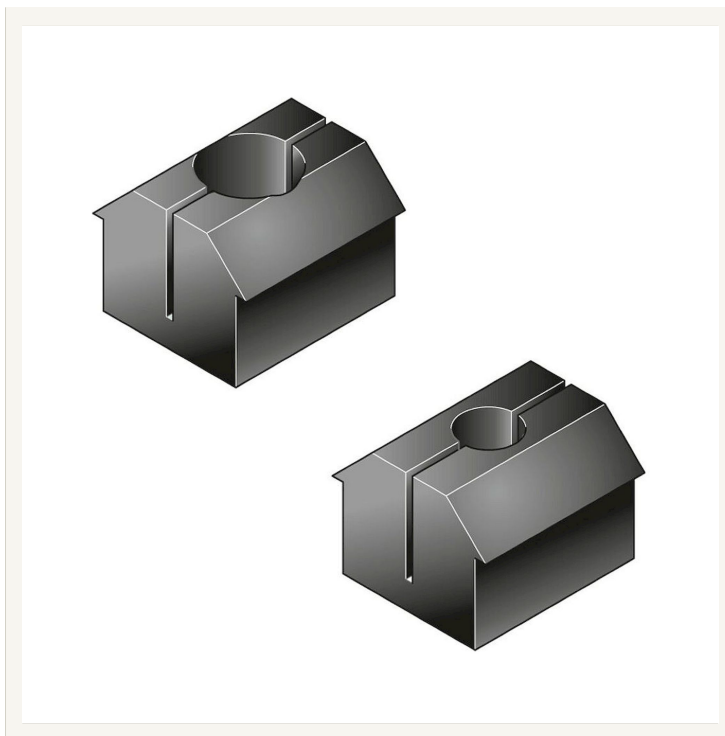

Item no. BRR-3842554774

Manufacturer Bosch Rexroth

Polyamide expander nut for creating fastening points in profile slot 10. It is placed into the slot and expands as the countersunk screw is tightened, providing an M4 threaded connection without machining the profile.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Italy
HS-Code	39269097
Weight	0.00103 kg

DESCRIPTION

The Bosch Rexroth M4 expander nut creates threaded fastening points in profile slot 10 of aluminum profiles. It is inserted into the slot and expands when the matching countersunk screw is tightened, locking it positively in place. This lets you mount add-on parts at any position without machining the profile.

- Fastening point can be added later at any point along the slot
- Plastic version made of PA, non-conductive and corrosion resistant
- Supplied in packaging units of 100 pieces

TECHNICAL DATA

Profile slot	10
Thread size	M4
Material	PA
Color	Signal gray (similar to RAL 7004)
Required accessories	Countersunk screw
Packaging unit	100 pieces
Weight	0.00103 kg
