

Position inquiry for lift transverse unit HQ 2/T and HQ 2/O - Bosch Rexroth 3842311920

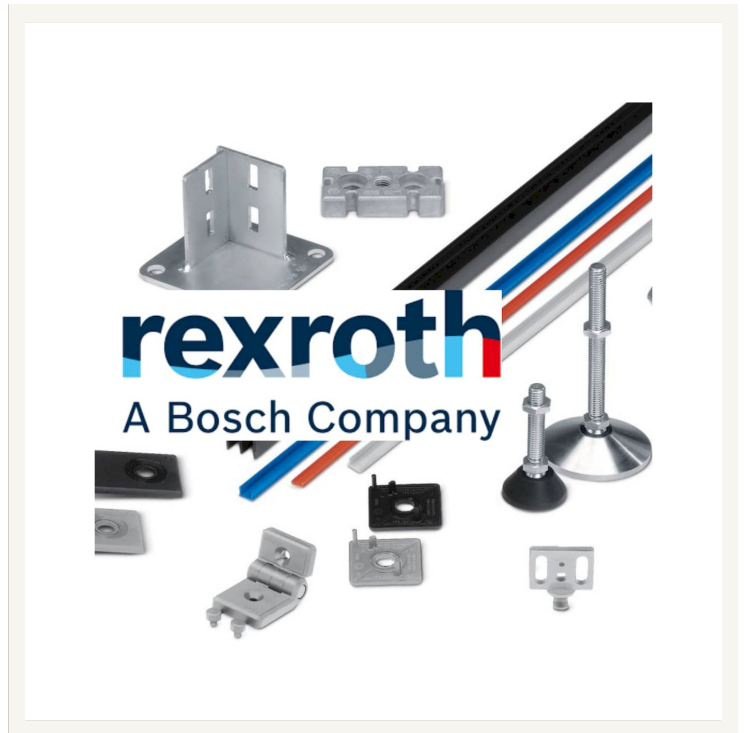

Item no. BRR-3842311920

Manufacturer Bosch Rexroth

Position inquiry for monitoring the position of the HQ 2/T and HQ 2/O lift transverse units. It reports the current position of the transverse unit to the controller and supports a reliable, defined sequence in the transfer system.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	73089059
Weight	0.0099 kg

DESCRIPTION

The Bosch Rexroth 3842311920 position inquiry monitors the position of the HQ 2/T and HQ 2/O lift transverse units in assembly and transfer systems. It is intended for machine builders and maintenance teams that need to report the position of the transverse unit reliably to the controller.

- Detects the position of the HQ 2/T and HQ 2/O lift transverse units
- Reports the position to the higher-level controller
- Supports a defined and repeatable transport sequence
- Compact, lightweight component for integration into existing units

TECHNICAL DATA

Function	Position inquiry (position monitoring)
Application	HQ 2/T and HQ 2/O lift transverse units
Manufacturer	Bosch Rexroth
Article number	3842311920
Weight	0.0099 kg
