DESCRIPTION

The protective box SK2/B is a housing element for the lift-transverse units in the cross-transport section of the Bosch Rexroth TS 2plus transfer system. It covers the components of the lift-transverse unit and protects them against contamination and mechanical impact. Suitable for system integrators and maintenance staff equipping or servicing existing TS 2plus lines.

- Housing made of anodized aluminum combined with PA 66
- Reliable protection of the cross-transport components
- Format 320 x 320 mm matched to the lift-transverse unit
