DESCRIPTION

The protective box SK2 320x400 is a housing element for cross transport in the Bosch Rexroth TS 2plus transfer system. It covers the components of the lift-transverse units and protects them reliably during operation. Suitable for system builders and maintenance teams that need a durable 320x400 cover.

- Housing made of anodized aluminum and PA 66 for high durability
- 320x400 format for the lift-transverse units of the TS 2plus
- Robust black design for continuous use
