

Accumulation Roller Chain L=5000 mm, Steel with PA 12 Rollers, incl. Master Link - Bosch Rexroth 3842508967

Item no. BRR-3842508967

Manufacturer Bosch Rexroth

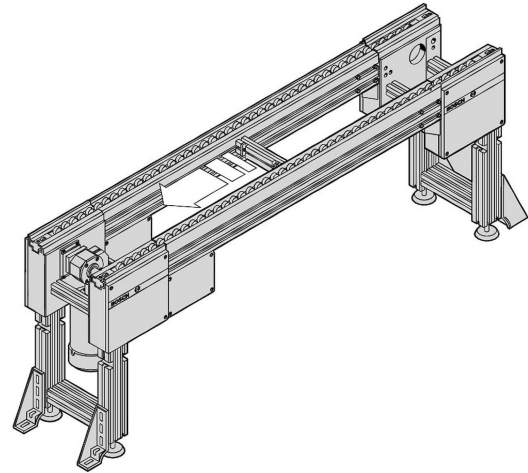

Accumulation roller chain for longitudinal transport in the TS 4plus transfer system. The steel chain with PA 12 accumulation rollers lets workpiece pallets accumulate while the chain keeps running. Supplied as a 5000 mm length including a master link.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **China**

HS-Code **73151190**

Weight **0.1 kg**

00112549

DESCRIPTION

The accumulation roller chain is a section unit component for longitudinal transport in the Bosch Rexroth TS 4plus transfer system. It conveys workpiece pallets and, thanks to the integrated accumulation rollers, allows individual pallets to be accumulated without stopping the chain. Suitable for system integrators and the maintenance of assembly and transfer lines.

- Accumulation of workpiece pallets while the chain keeps moving
- Steel chain with wear-resistant PA 12 accumulation rollers
- Supplied as a 5000 mm length including a master link for easy assembly

TECHNICAL DATA

Length L 5000 mm

Chain material Steel

Roller material PA 12

Scope of delivery incl. master link

Weight 10.308 kg
