

Idle Roller EcoFlow ST, Galvanized Steel, EL=325 mm - Bosch Rexroth 3842525738

Item no. BRR-3842525738

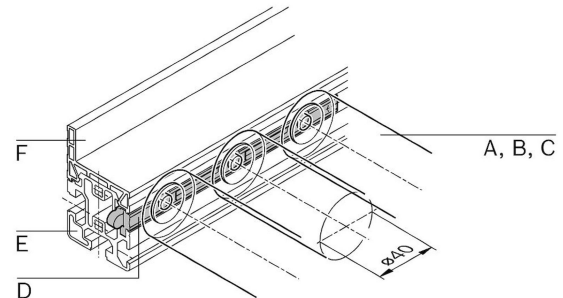

Manufacturer Bosch Rexroth

Non-driven idle roller in galvanized steel for linking EcoFlow lines. It offers a 325 mm roller length and a permissible force of 500 N. Designed for installation in manual EcoFlow production systems.

TECHNICAL DATA

HS-Code 83022000

Weight 0.516 kg

00138973

DESCRIPTION

The EcoFlow ST idle roller is a single component for linking Bosch Rexroth EcoFlow lines in manual production systems. As a non-driven roller it supports and guides workpiece pallets or containers along the conveyor section.

- Roller body in galvanized steel for durability and corrosion resistance
- Roller length EL 325 mm
- Permissible force Fmax 500 N

TECHNICAL DATA

Force Fmax	500 N
Material	Steel, galvanized
Roller length EL	325 mm
Weight	0.516 kg
