

Conveyor Section Profile SP 1, Anodized Aluminium, 6000 mm - Bosch Rexroth 3842529934

Item no. BRR-3842529934

Manufacturer Bosch Rexroth

The SP 1 conveyor section profile is the load-bearing aluminium profile used to build ST 1 conveyor sections. Continuous longitudinal grooves allow easy mounting of the GP 1 guide profile and QV 1 cross connectors. Supplied at 6000 mm, anodized aluminium.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg

DESCRIPTION

The Bosch Rexroth SP 1 conveyor section profile is the load-bearing element used to build ST 1 conveyor sections. It forms the mechanical base of a section and accepts the GP 1 guide profile and the QV 1 cross connectors.

- Load-bearing aluminium profile for building ST 1 conveyor sections
- Continuous longitudinal grooves for easy and secure mounting of add-on parts
- Accepts the GP 1 guide profile that guides the belt
- Joins multiple profiles via QV 1 cross connectors
