

Intermediate Plate 130/325 to 195/260, Galvanized Steel - Bosch Rexroth 3842545355

Item no. BRR-3842545355

Manufacturer Bosch Rexroth

Intermediate plate from the Bosch Rexroth TS 5 transfer system. In longitudinal transport it bridges the transition between line sections with different roller spacing (130/325 to 195/260). Made of galvanized steel for lasting corrosion protection.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	73089098
Weight	134 kg

DESCRIPTION

The intermediate plate is a connecting element from the Bosch Rexroth TS 5 transfer system. It is used in longitudinal transport to bridge the transition between line sections with different roller spacing dimensions.

- Bridges the transition between roller spacing 130/325 and 195/260
- Galvanized steel for corrosion protection
- Part of the connection sets for the TS 5 transfer system

TECHNICAL DATA

Transition between different roller spacing [p1/p2]	130/325; 195/260
Material	Steel, galvanized
Weight	0.134 kg
Packaging unit	10
