DESCRIPTION

This Bosch Rexroth protective cover closes off transition areas of the ST 5/XH-FR and ST 5/H-FR roller conveyors where the roller spacing changes. It is intended for building transfer systems and protects the section center against intervention and contamination.

- Made of galvanized steel for durability and corrosion protection
- Matched to track width b 455 mm
- Covers the transition between different roller spacing dimensions (p1/p2 and p2/p3 each 130/195 mm)

Four spring elements (3842545214) are required to fix each protective cover.
