

# Heating Element Soldering Iron - Hakko A1321

Item no. HK-A1321

Manufacturer Hakko

EAN 4962615516276

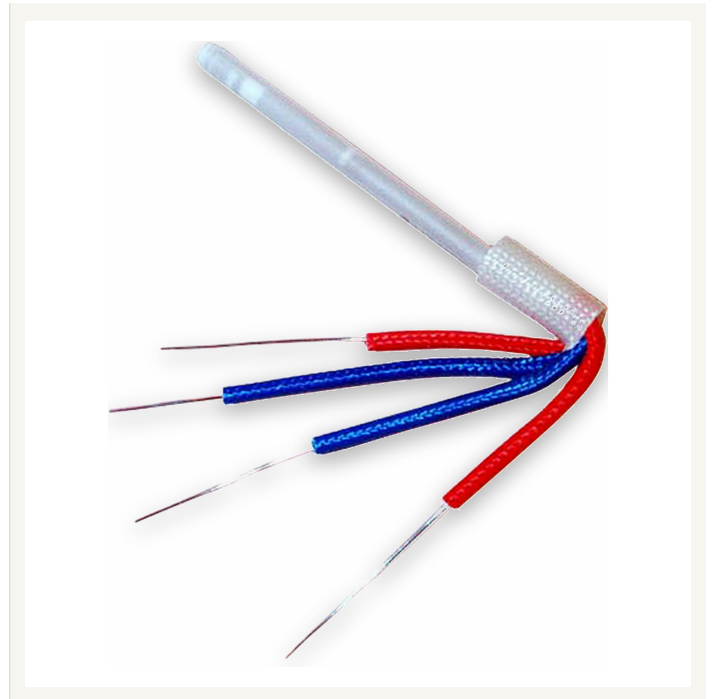

Genuine Hakko A1321 heating element replacement for soldering irons models 907, 908, 913, 914, 951, and 952. Ensures consistent heat delivery and optimal soldering performance.

## TECHNICAL DATA

Country of Manufacture **Japan**

HS-Code **85159080**

Weight **0.1 kg**

## DESCRIPTION

## OVERVIEW

The Hakko A1321 is a genuine heating element designed as a replacement component for multiple Hakko soldering iron models. This heating element ensures consistent thermal performance and reliable operation across compatible iron models.

## KEY FEATURES

- Genuine Hakko replacement part
- Compatible with multiple soldering iron models
- Ensures consistent heat delivery
- Direct replacement for worn or damaged elements
- Maintains original performance specifications

## COMPATIBLE MODELS

The A1321 heating element is compatible with the following Hakko soldering iron models: 907, 908, 913, 914, 951, and 952.
