

Outlet Filter for Desoldering Station - Hakko B1070

Item no. HK-B1070

Manufacturer Hakko

EAN 4962615518232

Replacement outlet filter for the Hakko 475 desoldering station. Maintains optimal fume extraction performance and air quality during desoldering operations.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.1 kg

DESCRIPTION

OVERVIEW

The Hakko B1070 is a replacement outlet filter designed for use with the Hakko 475 desoldering station. This filter maintains the efficiency of the fume extraction system by capturing particulates and vapors generated during desoldering operations.

KEY FEATURES

- Direct replacement for Hakko 475 desoldering station
- Captures solder fumes and particulates
- Maintains consistent air flow performance
- Easy installation and replacement
- Extends desoldering station operational life

TECHNICAL SPECIFICATIONS

Compatible Equipment	Hakko 475 Desoldering Station
Product Type	Fume Extraction Filter
Country of Origin	Japan

APPLICATIONS

Ideal for maintaining fume extraction performance in professional electronics repair, PCB rework, and desoldering applications where consistent air quality is essential.
