

Motor without Gearbox for Solder Feed - Hakko B1880

Item no. HK-B1880 Manufacturer Hakko EAN 4962615524981

Replacement motor without gearbox for Hakko 373 automatic solder feeder. Direct drive component for continuous solder wire feeding in production soldering applications.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.1 kg

DESCRIPTION

OVERVIEW

The Hakko B1880 is a replacement motor without integrated gearbox designed specifically for the Hakko 373 automatic solder feeder system. This component provides the driving force for consistent and reliable solder wire advancement during soldering operations.

KEY FEATURES

- Direct motor unit without gearbox assembly
- Genuine Hakko replacement part for model 373
- Designed for continuous duty in production environments
- Reliable solder wire feed mechanism
- Japanese manufacturing quality

TECHNICAL SPECIFICATIONS

Model	B1880
Type	Motor without Gearbox
Application	Hakko 373 Automatic Solder Feeder
Country of Origin	Japan

APPLICATIONS

Replacement component for Hakko 373 automatic solder feeder systems used in electronics manufacturing, PCB assembly, and high-volume soldering operations requiring consistent solder wire feed.
