## DESCRIPTION

## OVERVIEW

The Hakko B2887 is a genuine replacement O-ring pack containing 10 pieces designed for use with Hakko soldering irons. These O-rings are critical components that maintain proper sealing and functionality of the handpiece assembly across multiple Hakko iron models.

## KEY FEATURES

- Pack of 10 genuine Hakko O-rings
- Compatible with models 917, 957, FX8301, and FX8302
- Ensures proper handpiece sealing and performance
- Original equipment manufacturer (OEM) part
- Japanese manufacturing quality

## COMPATIBILITY

These O-rings are designed for use with the following Hakko soldering iron models: 917, 957, FX8301, and FX8302. Regular replacement maintains optimal handpiece function and prevents air leaks or performance degradation.

## SCOPE OF DELIVERY

- 10 × O-ring replacement parts
