

Desoldering Nozzle Ejector FM 2024 - Hakko B3254

Item no.	HK-B3254	Manufacturer	Hakko
Manufacturer no.	B 3254	EAN	4962615022890

Replacement ejector nozzle for the Hakko FM 2024 desoldering control box. Ensures reliable solder suction and component removal during desoldering operations.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Japan
HS-Code	85159080
Weight	0.1 kg

DESCRIPTION

Overview

The Hakko B3254 is a precision ejector nozzle designed specifically for the FM 2024 desoldering control box. This replacement part maintains optimal performance and reliability during solder removal operations on printed circuit boards.

Key Features

- OEM replacement part for FM 2024 desoldering station
- Precision-engineered for consistent solder suction
- Durable construction for extended service life
- Easy installation and replacement
- Maintains desoldering efficiency and accuracy

Technical Specifications

Compatibility	Hakko FM 2024 Desolder Control Box
Part Type	Desoldering Nozzle Ejector
Country of Origin	Japan

Applications

Ideal for PCB rework, component replacement, and desoldering operations where precision and reliability are essential. Suitable for both production and repair environments.

Scope of Delivery

- 1× Desoldering Nozzle Ejector B3254
