

Desoldering Braid No-Clean 1.5m x 2.5mm - Hakko FR-150-85

Item no. HK-FR-150-85

Manufacturer Hakko

EAN 4962615050541

Kein Produktbild

No-clean desoldering braid for efficient solder removal. 1.5 metre length with 2.5mm width. Ideal for PCB rework, component removal, and soldering corrections without flux residue.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	38101000
Weight	0.1 kg

DESCRIPTION

OVERVIEW

The Hakko FR-150-85 is a premium no-clean desoldering braid designed for efficient and reliable solder removal during PCB rework and component replacement. With its 2.5mm width and 1.5 metre length, this braid offers excellent coverage for both fine-pitch and standard soldering applications.

KEY FEATURES

- No-clean formula eliminates need for post-soldering cleaning
- 2.5mm width suitable for standard and fine-pitch work
- 1.5 metre length provides extended usability
- Excellent capillary action for efficient solder absorption
- Compatible with standard soldering irons and desoldering stations
- Reliable performance on lead-free and lead-based solder

TECHNICAL SPECIFICATIONS

Braid Width	2.5 mm
Length	1.5 m
Type	No-clean desoldering braid
Country of Origin	Japan

APPLICATIONS

Ideal for PCB rework, component removal, soldering corrections, and maintenance work in electronics manufacturing and repair environments. Suitable for both professional and educational use.
