Table frame Sintro Packen 1230 height adjustment with electric motor. Load-bearing table frame for modular workstation assembly.

## TECHNICAL DATA

Article authenticity	<b>Original product</b>
Colour	<b>Light Grey</b>
Condition of article	<b>New</b>
Country of Manufacture	<b>Germany</b>
Note	<b>max. Flächenlast 200 kg</b>
Weight	<b>1 kg</b>

## DESCRIPTION

Torsion-resistant table frame as the load-bearing base of the workstation. It securely carries the table top and add-on elements and adapts to the required working height.

### Design and equipment

- height adjustment range: 740-1140 mm
- sturdy steel-tube construction with levelling elements in the foot section
- work surface load-rated for 200 kg uniformly distributed load (4 lifting cylinders)
- powder-coated in light grey (RAL 7035)
- drive control via desk panel.
- Height adjustment is operated via a corded remote control mounted on the underside of the table, with up / down function.
- A current monitor protects the drive against overload and at the same time acts as a safety function when the system is raised.
- (incl. 3 m connection cable)

**Dimensions:** 1230x900 mm
