

Variofix Block S 40/45, Slot 10, Signal Grey - Bosch Rexroth 3842564810

Item no. BRR-3842564810

Manufacturer Bosch Rexroth

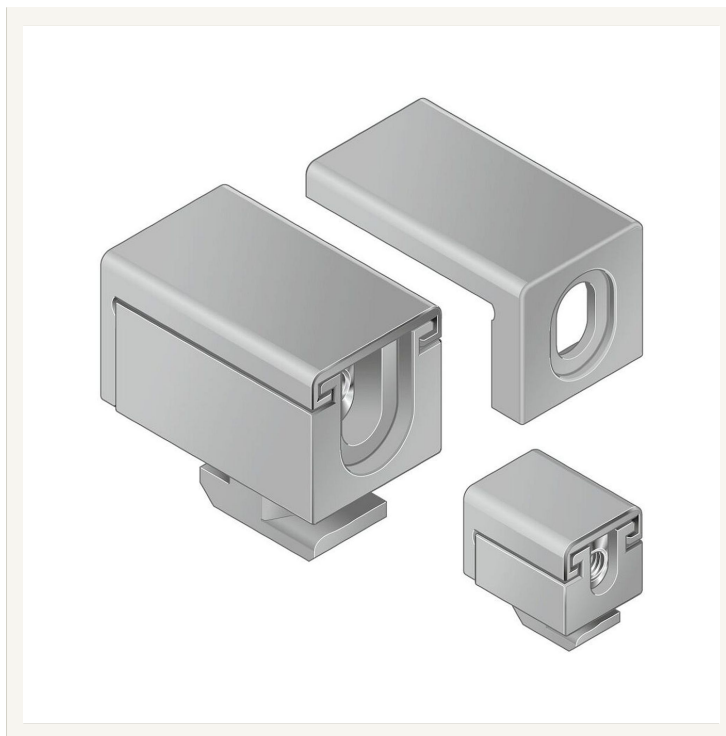

The Variofix Block S 40/45 secures panel elements to aluminium profiles in the 40 and 45 mm series using slot 10. Lightweight at 14 g, the compact plastic body fits tight assemblies. A retaining ring accessory keeps the fixing screw permanently attached to the panel element.

TECHNICAL DATA

Country of Manufacture **Italy**

HS-Code **39269097**

Weight **0.014 kg**

DESCRIPTION

The Variofix Block S 40/45 is a plastic connector for Bosch Rexroth assembly technology. It attaches panel elements to 40 and 45 mm aluminium profiles via slot 10, combining a small footprint with reliable hold in framing and enclosure applications.

- Compatible with 40 and 45 mm aluminium profiles (slot 10)
- Optional retaining ring locks the fixing screw to the panel element - no loose hardware during assembly
- Retaining ring can be retrofitted; compatible with all Variofix Blocks S (not applicable to Angle S)
