

Radial Compensation 30 for Slot 8, Signal Gray RAL 7004 - Bosch Rexroth 3842551026

Item no. BRR-3842551026

Manufacturer Bosch Rexroth

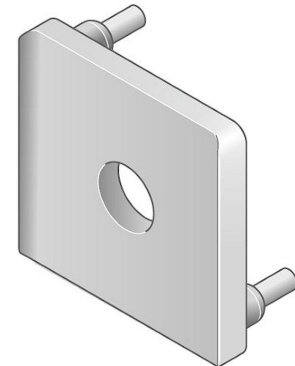

Radial compensation element in PA for aluminum profile systems with slot 8, signal gray (RAL 7004). Compensates for angular deviations at profile joints to ensure precise alignment in assembly technology applications. Packaging unit: 10 pieces.

TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **39235090**

Weight **0.023 kg**

20517

DESCRIPTION

The radial compensation 30 allows flush, stress-free connection of aluminum profiles with slot 8 even where slight angular deviations occur. Made from polyamide (PA) in signal gray (RAL 7004), it integrates directly into the Bosch Rexroth aluminum profile system.

- Fits profile slot 8 of the Bosch Rexroth aluminum profile system
- PA material: lightweight, corrosion-resistant and dimensionally stable
- Signal gray (RAL 7004) for a visually consistent appearance on assembly lines
- Compensates radial deviations and reduces mechanical stress at joints
- Packaging unit of 10 for efficient stock management
