

45° Diverter Left for VFplus 90 - Track Change Assembly Kit for Conveyor Sections - Bosch Rexroth 3842551091

Item no. BRR-3842551091

Manufacturer Bosch Rexroth

Left-hand 45° diverter kit for the Bosch Rexroth VFplus 90 transfer system, supplied as a complete assembly kit for installation on existing conveyor sections or curve wheels. The integrated support prevents workpiece pallets from tipping as they cross the section gap. Designed for optional track changes between diverging conveyor sections.

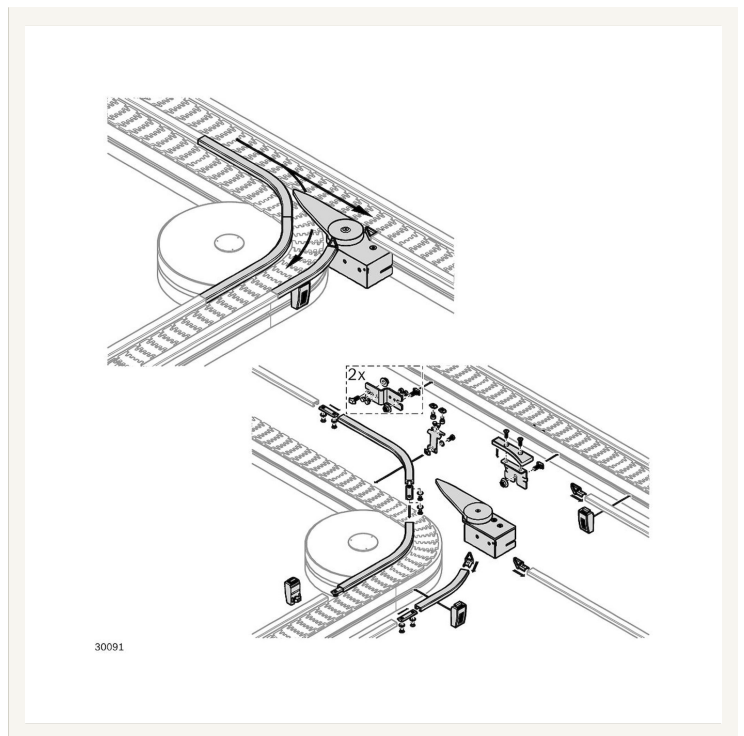

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

HS-Code **84313900**

Weight **0.0099 kg**

DESCRIPTION

The 45° diverter left (kit) provides controlled track changes between curving sections of the Bosch Rexroth VFplus 90 transfer system. An integrated sliding-surface support ensures the workpiece pallet crosses the section gap safely - accumulation operation against the diverter blade is not permitted.

- Complete kit including all fastening parts for installation on existing sections and curve wheels
- Tip-safe pallet travel over the section gap thanks to the integrated support
- Diverter blade and sliding-surface support in PA (black) - smooth running and low wear
- Track change selectively controllable; position sensing available with separate sensor (art. 3842535150)
- Fits VFplus 90 series; variants for VFplus 65 and 90° diverters (left/right) also available

TECHNICAL DATA

Specification	Value
Version	45° diverter, left
System	VFplus 90
Size [b]	90 mm
Diverter blade / sliding-surface support	PA, black
Scope of delivery	Kit including fastening parts

Specification	Value
Required accessories (not included)	2 throttle non-return valves G 1/8"
Weight	2 kg (kit); shipping weight approx. 0.01 kg
Article number	3842551091
