

Master Link Flat Top ESD Chain, Nickel-Plated, with Flat Top Plate - Bosch Rexroth 3842551234

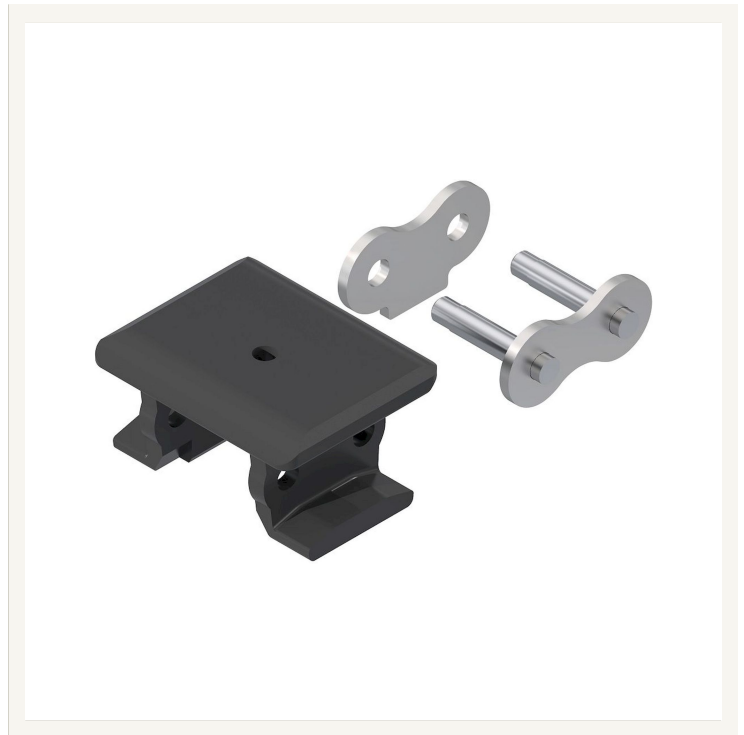

Item no. BRR-3842551234

Manufacturer Bosch Rexroth

Master link for the TS 2plus transfer system flat top ESD chain, made from nickel-plated steel. Supplied complete with one ESD flat top plate (gray) with hole. Designed for electrostatically safe conveyor lines in assembly automation.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	China
HS-Code	84313900
Weight	0.02 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The master link for the TS 2plus flat top ESD chain allows the conveyor chain to be opened and closed without special tooling. Made from nickel-plated steel, it meets the ESD requirements for handling sensitive electronic assemblies in automated production environments.

- ESD-compliant: safe transport of electrostatic-sensitive components and assemblies
- Nickel-plated steel: corrosion-resistant for reliable continuous operation
- Complete delivery: master link including one ESD flat top plate (gray) with hole - ready to install

TECHNICAL DATA

Attribute	Value
ESD	yes
Material	Steel, nickel-plated
Scope of delivery	Master link, incl. 1x ESD flat top (gray) with hole
Weight	0.02 kg
