

Chain Tensioning Wheel 320+ Basic Unit, Size 320 mm - Bosch Rexroth 3842553059

Item no. BRR-3842553059

Manufacturer Bosch Rexroth

Tensioning wheel for the VarioFlow plus aluminium chain conveyor system, size 320 mm. The Basic Unit maintains correct chain tension in the deflection zone, ensuring smooth, uninterrupted conveyor operation. Designed for assembly and transfer lines using the VarioFlow plus 320+ aluminium system.

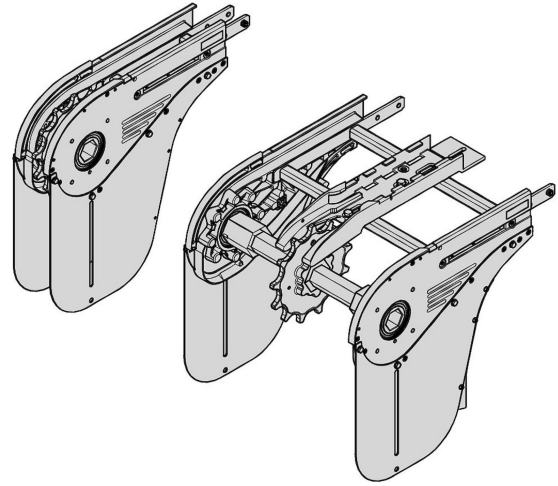

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

HS-Code **39269097**

Weight **0.1 kg**

29399

DESCRIPTION

The Chain Tensioning Wheel 320+ Basic Unit from Bosch Rexroth is a tensioning element for the VarioFlow plus chain conveyor system, size 320 mm. Installed in the drive and deflection section, it maintains the correct chain tension to ensure consistent chain travel and extended service life of the conveyor chain.

- **Matched to VarioFlow plus 320+:** Dimensions and mounting geometry are precisely coordinated with the 320 mm aluminium system.
- **Reliable chain tension:** Prevents chain sag and over-tension, reducing wear and noise.
- **Modular by design:** Integrates directly into the Rexroth VarioFlow plus module structure with no additional adapter parts.

TECHNICAL DATA

Attribute	Value
Size [b]	320 mm
Weight	0.805 kg
System	VarioFlow plus aluminium system
Installation area	Drive and deflection
