

Communication Module 8400MotEC PROFINET - Bosch Rexroth 3842553450

Item no. BRR-3842553450

Manufacturer Bosch Rexroth

Communication module for the 8400MotEC frequency inverter, enabling integration into PROFINET IO networks. Allows cyclic process data exchange and remote parameterisation of the drive over standard Ethernet infrastructure. Designed for drive axes in the VarioFlow plus aluminium conveyor system.

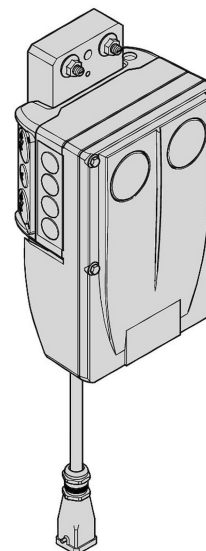

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

HS-Code **85176200**

Weight **0.9 kg**

33404

STANDARDS & COMPLIANCE

IEC 61158

DESCRIPTION

The 8400MotEC PROFINET communication module adds a standardised PROFINET IO interface to the decentralised 8400MotEC frequency inverter. Drive axes in VarioFlow plus conveyor lines can be connected directly to a PLC without additional fieldbus gateway hardware.

- Direct integration into PROFINET IO networks to IEC 61158
- Cyclic exchange of process and status data with the control system
- Network-based parameterisation - reduces on-site commissioning effort
- Designed for use with the Bosch Rexroth VarioFlow plus aluminium chain conveyor system

TECHNICAL DATA

	Property	Value
Weight		0.9 kg
Communication protocol		PROFINET IO
Compatible inverter		8400MotEC
