

# Conveyor Section Profile SP 1, Anodized Aluminum, 50-6000 mm - Bosch Rexroth 3842992934

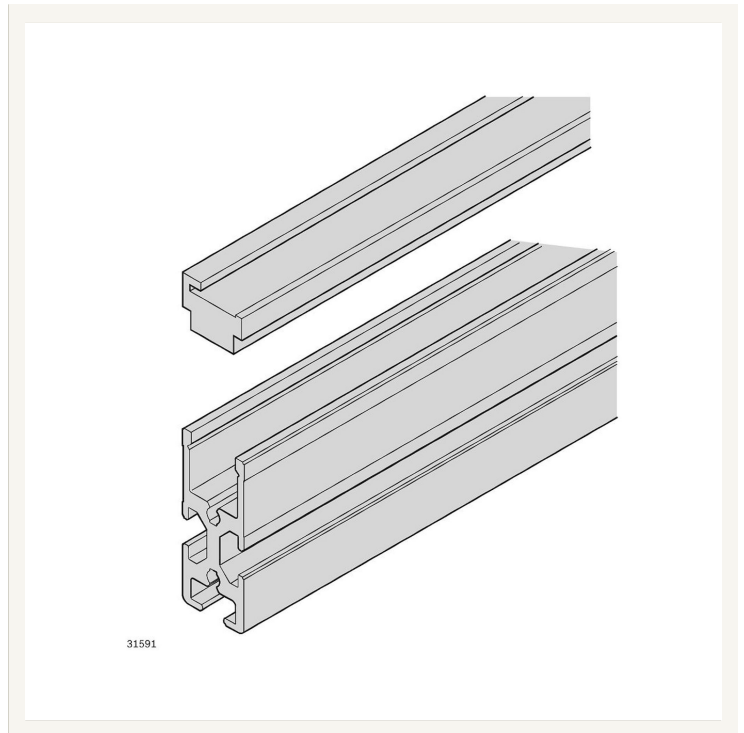

Item no. BRR-3842992934

Manufacturer Bosch Rexroth

Aluminum conveyor section profile for the TS 1 transfer system, featuring a size-8 profile slot and variable cut lengths from 50 mm to 6000 mm. The anodized finish ensures lasting corrosion resistance in continuous assembly line use; priced per cut length.

## TECHNICAL DATA

| Ausführungsklasse      | TEC      |
| Country of Manufacture | Germany  |
| HS-Code                | 76042100 |
| Weight                 | 0.1 kg   |

## DESCRIPTION

The Section Profile SP 1 is the structural backbone of conveyor section units in the Bosch Rexroth TS 1 transfer system. Supplied in cut-to-length format between 50 mm and 6000 mm, it allows precise line layout planning with no material waste.

- Variable length from 50 to 6000 mm - cut to exact requirement, priced per cut length
- Size-8 profile slot for direct mounting of add-on components, sensors and guide elements without additional drilling
- Anodized aluminum - lightweight, corrosion-resistant, and rated for continuous use in assembly systems
- Native TS 1 system component - fully compatible with all conveyor section assembly parts

## TECHNICAL DATA

| Attribute             | Value                |
|-----------------------|----------------------|
| Product name          | Section Profile SP 1 |
| System                | Transfer system TS 1 |
| Condition on delivery | Variable length      |
| Length min (L min)    | 50 mm                |
| Length max (L max)    | 6000 mm              |

|              | Attribute | Value              |
|--------------|-----------|--------------------|
| Profile slot |           | 8                  |
| Material     |           | Aluminum, anodized |
