ESD safe

DESCRIPTION

The Guide Profile MV45 Grey is an extruded aluminium profile for the Bosch Rexroth MV45 assembly system. It functions as a running and guide rail in transfer and conveyor systems, and is supplied cut to the required length as a priced-per-cut item.

- Length range 30 to 3000 mm - adaptable to any line layout
- Fully compatible with all MV45 system components (drives, deflections, supports)
- Grey surface finish - corrosion-resistant and easy to clean
- Precision guide geometry for smooth, consistent workpiece travel
- Ordered as a cut length - no on-site trimming required
