

## SF Profile Variable Length 30-3000 mm - Bosch Rexroth 3842993615

Item no. BRR-3842993615

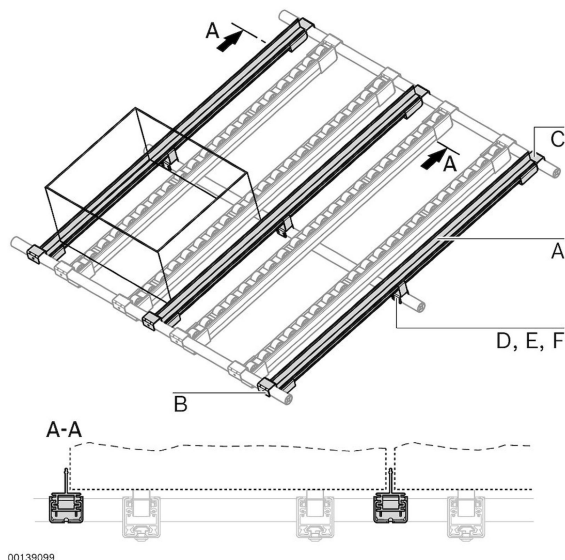

Manufacturer Bosch Rexroth

Polymer SF profile for transport guides in manual assembly systems. Supplied cut to length - any dimension from 30 to 3000 mm available. Compatible with Rexroth shelving and flow-line assembly systems.

### TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **39174000**

Weight **0.15 kg**

### DESCRIPTION

The SF polymer profile is a guide and transport profile for Bosch Rexroth manual production systems. Supplied as a cut-to-length item, it is delivered in the required dimension between 30 mm and 3000 mm, reducing material waste on the assembly line.

- Flexible length selection from 30 mm to 3000 mm - no need to stock standard cut lengths
- Polymer construction - lightweight, corrosion-resistant and gentle on conveyed components
- System-compatible with Rexroth shelving and transport guide systems in the assembly technology range

### TECHNICAL DATA

| Attribute             | Value                                   |
|-----------------------|-----------------------------------------|
| Condition on delivery | Variable length (cut-to-length pricing) |
| Length min [L min]    | 30 mm                                   |
| Length max [L max]    | 3000 mm                                 |
| Material              | Polymer                                 |
| Weight                | Dependent on ordered length             |
