Weight	0.0099 kg

24486

DESCRIPTION

The WG40 protective frame (art. 3842994744) is a fully pre-assembled component for machine guarding enclosures in the Bosch Rexroth assembly system. The anodized aluminum profile 30x30 WG40 with hot-galvanized woven wire grille 40x40x4 provides a sturdy, ready-to-install guard for hazardous areas around production equipment.

- Fully assembled on delivery - no preparatory assembly work required
- Fast mounting on 45x45 supports via suspension brackets, manageable by a single fitter
- Modular system: standard widths and custom dimensions available; frames can be divided horizontally or vertically for added stability on large surfaces
- Color-coated woven wire grille improves visual contrast and helps identify access routes and emergency exits
- Compatible kits available for system doors, sliding doors, and double doors

TECHNICAL DATA

Parameter	Value
Frame profile	30x30 WG40
Woven wire grille	40x40x4 mm, hot-galvanized
Frame width min. (B min)	500 mm
Frame width max. (B max)	3000 mm

Parameter	Value
Frame height min. (HR min)	250 mm
Frame height max. (HR max)	2300 mm
Frame material	Aluminum, anodized
Grille material	Steel, hot-galvanized
Modular dimension B	45x45 supports
Packaging unit	1 piece
Weight	10 kg
