DESCRIPTION

The 40x80 aluminium cable duct (article 3842996357) provides structured routing for various cable types in assembly and automation environments. Supplied pre-assembled with cover and base body, it can be cut to any length between 80 mm and 3000 mm to suit the installation.

- ESD-conductive: electrically bonded cover-to-base connection, suitable for electrostatic protected areas
- Anodized aluminium surface on both duct and cover for a high-quality finish and corrosion resistance
- Interior divisible (compatible with 80x40 and 80x80 sizes); screw channels lock the cover securely
- Edge protection prevents cable and conductor damage at cut edges
- PG cable glands possible in side wall and end cover (requires mechanical machining); sockets and switches can be integrated
- Cover can be secured with self-tapping screw 3842552267 (accessory, sold separately)
- VDE-certified, complies with DIN EN 50085-1 and DIN EN 50085-2-1
