

Damper DA 4/250 for Aluminium Profile System - Bosch Rexroth 3842998057

Item no. BRR-3842998057

Manufacturer Bosch Rexroth

Compact damper for the Bosch Rexroth aluminium profile system, type DA 4/250. Absorbs end-stop impact forces and reduces vibration transfer in linear guides and transfer systems. Weighs 9.9 g; mounts directly in the profile without special tooling.

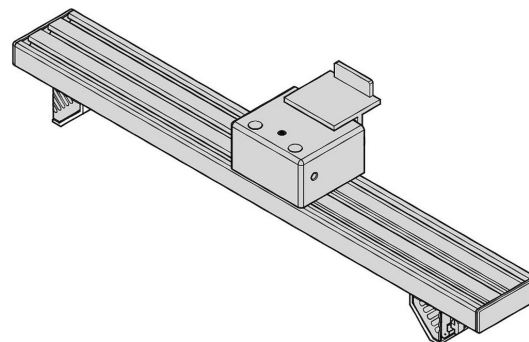

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

HS-Code **84313900**

Weight **0.0099 kg**

00013046

DESCRIPTION

The DA 4/250 damper is an add-on component for the Bosch Rexroth aluminium profile system (assembly technology). It buffers end-stop forces and reduces vibration transmission to the supporting structure, making it suitable for conveyor systems, transfer lines and manual workstations built on the Rexroth profile construction kit.

- Type DA 4/250: designed for 4 mm profile grid, length/stroke 250 mm
- Low weight of 9.9 g - negligible effect on system dynamics
- Direct integration into existing profile systems without special tools
- Genuine Bosch Rexroth replacement part - assured compatibility within the modular system
