DESCRIPTION

The WT 4 parts kit allows flexible integration into assembly lines where a custom carrying plate is required: the plate is not included, so it can be fabricated and fitted to specific workpiece geometries. All components are matched to the TS 4plus transfer system for reliable pick-up and transportation of workpieces under continuous production conditions.

- **15 standard sizes** - pallet dimensions IWT x bWT from 443 x 443 mm to 1243 x 1243 mm to suit a wide range of workpieces.
- **PE runner profiles** ensure quiet running and low wear in continuous operation.
- **Integrated stop damper** provides gentle contact with adjacent workpiece pallets and protects components.
- **ESD-compatible** for use in electrostatically sensitive production environments.
- Scope of delivery: corner modules, runner profiles, damping elements - carrying plate not included.
