

ESD Spiral Wrap for cable bundling, transparent, 10 m - A1-ESD C-208-1628

Item no. C-208-1628

Manufacturer A1-ESD

EAN 4057989016283

Transparent ESD spiral wrap for bundling and protecting cables in cable assembly. The 10 m dissipative PE band gathers cable bundles of 5 to 20 mm while keeping a surface resistance of around 10^9 Ohm.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Transparent
Sales unit	Rolle 10 m
Weight	0.2 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Spiral wrap made of dissipative PE for bundling and protecting cables in cable assembly. The transparent band is wound around the cable bundle and keeps leads neatly gathered without breaking ESD protection.

TECHNICAL DATA

- Material: PE, dissipative
- Colour: transparent
- Length: 10 m
- Inner diameter: 4 mm
- Cable bundle diameter: 5 to 20 mm
- Material thickness: 1 mm
- Surface resistance: approx. 10^9 Ohm

APPLICATION

Bundling and protection of cable harnesses at ESD workstations and in cable assembly.
