

Silicone Suction Cup, OD 8 mm, max. 200 °C - Ersa 0IR4520-01

Item no. ER-0IR4520-01

Manufacturer Ers

EAN 4003008081503

Silicone suction cup with 8 mm outer diameter for the vacuum pipette of Ers IR and hybrid rework stations. Heat-resistant up to 200 °C; fits 0IR500, 0IR550, 0HR600, 0HR600/2 and 0IR650.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.01 kg

DESCRIPTION

Silicone suction cup for the vacuum pipette of Ers infrared and hybrid rework stations. It picks up SMD and BGA components safely and, being silicone, withstands temperatures up to 200 °C.

TECHNICAL DATA

Type	Suction cup (spare part)
Material	Silicone
Outer diameter	8 mm
Max. temperature	200 °C
Suitable for	0IR500, 0IR550, 0HR600, 0HR600/2, 0IR650
Manufacturer number	0IR4520-01
EAN	4003008081503
