

Placement Nozzle Ø 1 mm for Placement Head HR 600 / HR 600/2 - Ersa 3HR600-06-023

Item no. ER-3HR600-06-023

Manufacturer Ersa

ERSA placement nozzle Ø 1 mm for the placement head of the HR 600 and HR 600/2 hybrid rework systems. For accurate pick-and-place of the smallest SMD components during rework.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.1 kg

DESCRIPTION

The ERSa placement nozzle Ø 1 mm is a precision nozzle for the placement head of the HR 600 and HR 600/2 hybrid rework systems. Its small 1 mm nozzle diameter allows very small SMD components to be picked up and positioned accurately during rework.
