

LED Faser-Licht mit Dimmer, Kaltweiß, 64 Lichtwellenleiter - Ersä 0VSLS030

Item no. ER-0VSLS030

Manufacturer Ersä

Cool-white LED fibre-optic light with stepless dimmer for shadow-free illumination on the Mobile Scope. 64 plastic light guides (Ø 0.250 mm) carry the light to the inspection point, powered by 3 AA batteries for cordless use.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Country of Manufacture **Germany**

ESD equipment **ESD Lötstationen**

HS-Code **85159080900**

Weight **0.1 kg**

DESCRIPTION

The LED fibre-optic light with dimmer illuminates the work point on the Ersä Mobile Scope evenly and with minimal shadows. A cool-white power LED feeds 64 plastic light guides (Ø 0.250 mm) that direct the light around the inspection area.

BENEFITS

- Stepless brightness control via the integrated dimmer
- Cool-white power LED for high-contrast detail viewing
- Cordless operation with 3 AA batteries (LR06)
- Flexible light-guide head for free positioning

TECHNICAL DATA

Article number	0VSLS030
Light source	Cool-white power LED
Illumination	64 x Ø 0.250 mm plastic light guides
Power source	3 x AA (LR06), alkaline batteries recommended
Size	Ø 26 x 250 mm (max. 40 x 250 mm)

APPLICATIONS

Auxiliary lighting for optical assembly inspection and rework on the Mobile Scope.

COMPATIBILITY

Suited to the Ersa Mobile Scope inspection system. The matching holder 0VSL5030H mounts the fibre light on the unit.
