

Absaugarm Omniflex mit Gelenk und Tischdurchführung, 600 mm, inkl. 2 m Schlauch - Ersä 291405

Item no. ER-291405

Manufacturer Ersä

EAN 4003008097597

Omniflex extraction arm with joint and table feed-through, 600 mm arm length, including 2 m hose for connection to EA1 or EA2. The feed-through lets the filter unit sit under the table.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
HS-Code	85159080900
Weight	0.1 kg

DESCRIPTION

The Omniflex extraction arm captures solder fume at the source and carries it through the supplied 2 m hose to the EA1 or EA2 filter unit. This version has a table feed-through, so the filter unit can be placed under the table and the angle joint fixed through a corresponding bore.

BENEFITS

- 600 mm arm length with joint for free positioning
- Includes 2 m hose for connection to EA1 or EA2
- Table feed-through for a filter unit below the worktop

TECHNICAL DATA

Article number	291405
Type	Omniflex extraction arm
Arm length	600 mm
Scope of delivery	incl. 2 m hose
Features	Joint and table feed-through

APPLICATIONS

Solder fume extraction at manual soldering workstations with the EA1 or EA2 filter units placed

under the table.

COMPATIBILITY

For connection to the Erska EA1 and EA2 solder fume filter units.
