

Extraction nozzle Plus rectangular 230 x 85 mm transparent - Ersa 0CA10-5004

Item no. ER-0CA10-5004

Manufacturer Ersa

EAN 4003008095241

A large capture hood quickly blocks the view of the solder joint. The transparent extraction nozzle Plus with 230 mm x 85 mm covers the full width of a working area and still leaves the assembly visible. It is designed for the EASY ARM 1 and 2 filter units.

TECHNICAL DATA

Ausführungsklasse	TEC
Colour	Transparent
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.1 kg

DESCRIPTION

The wider a capture hood is, the more it takes away the operator view. The Ersa extraction nozzle Plus 0CA10-5004 solves this with a transparent body: it covers a wide working area of 230 mm x 85 mm and stays see through, so the solder joint remains in sight.

BENEFITS

- Wide capture cross section of 230 mm x 85 mm for large working areas
- Transparent version keeps assembly and solder joint clearly visible
- Low own weight of 0.1 kg, the extraction arm stays easy to position
- Intended for the Ersa filter units EASY ARM 1 and EASY ARM 2
- Can also be used on the Omniflex extraction arm via nozzle coupling 0CA10-9006

TECHNICAL DATA

Article no.	ER-0CA10-5004
Manufacturer	Ersa
Manufacturer article no.	0CA10-5004
Product type	Extraction nozzle Plus
Version	transparent
Length	230.00 mm
Width	85.00 mm

APPLICATIONS

Wide hand soldering and rework benches, repair stations with larger assemblies as well as test and laboratory tables where solder fume and flux vapours have to be captured across a larger surface.

COMPATIBILITY AND SCOPE OF DELIVERY

Fits the filter units EASY ARM 1 (OCA10-001) and EASY ARM 2 (OCA10-002). In combination with the Omniflex extraction arm the Omniflex nozzle coupling OCA10-9006 is additionally required. Delivery covers the nozzle without arm, coupling and filter unit.
