Norm	EN 61340-5-1
Sales unit	1 Set
Weight	0.0853 kg
Width	45

STANDARDS & COMPLIANCE

ESD safe EN 61340-5-1

DESCRIPTION

The floor grounding kit 210320 grounds an ESD floor and provides a fixed test point for recurring floor measurements. It is supplied complete with two metres of self-adhesive copper earthing tape.

YOUR BENEFITS

- Complete kit with earthing tape, earth bracket and fixings
- Plug socket gives a handy reference point when auditing the floor
- Grounds an area up to 10 x 20 m

SCOPE OF SUPPLY AND SPECIFICATIONS

- 2 m self-adhesive copper earthing tape (same as 210315)
- Earth facility bracket with 4 mm plug socket, dimensions 45 x 55 x 10 mm
- Earth cord green/yellow, 3 m, with M5 ring terminal
- 2 screws, 6 cable clips and a spare M5 ring terminal
- Test point intended for wall mounting
- Prior Vermason item number: C3020

APPLICATIONS

For grounding ESD floor coverings and establishing a defined test point in EPA areas.

STANDARDS AND COMPLIANCE

Grounding to EN 61340-5-1.
