

Control Card with Interface for i-CON 2 Soldering Station - Ersä 0IC205S

Item no. ER-0IC205S

Manufacturer Ersä

Control card with interface for the Ersä i-CON 2 soldering station. The interface enables control of external components such as fume extraction and a heating plate. Ideal as a retrofit or replacement part.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Weight	0.1 kg

DESCRIPTION

ERSA control card with interface, used as a retrofit or replacement card for the i-CON 2 soldering station. The integrated interface allows control of external components such as soldering fume extraction and a heating plate and provides a serial interface.

TECHNICAL DATA

Article number	0IC205S
Type	Control card with interface
Compatible station	Ersä i-CON 2
Function	Retrofit and replacement card
Manufacturer	Ersä (Kurtz Ersä)
