STANDARDS & COMPLIANCE

ESD safe DIN EN 61340-5-1

DESCRIPTION

WORKSTER ESD WORK SWIVEL CHAIRS

Our ESD chairs feature seats and backrests of conductive PU foam or fabric, gas-spring height adjustment and sturdy steel or aluminium bases. All work chairs allow the seat to be adjusted in height and the backrest in height and depth. All chair components are ESD-conductive. Conductive surfaces and materials provide reliable protection against uncontrolled electrostatic discharge at the workplace. For your safety, every chair is individually measured for conductivity to DIN EN 61340-5-1 before shipping and a test report is issued. This report is supplied with the chair.

STANDARD FEATURES AT A GLANCE
