DESCRIPTION

ASSISTENT FOOT-OPERATED STOOL

Our foot-operated laboratory stools are available for special applications where you depend on this specialised type of height adjustment, for example in the laboratory or at the dentist. A sturdy chrome-plated steel base provides a secure stance. On request we also offer the models without telescope cover. On all models the seat height is easily set by gas spring, and on some models the seat tilt as well.

STANDARD FEATURES AT A GLANCE

- Seats rotatable and height-adjustable, tilt-adjustable on models with a backrest
- Backrest pendulum-mounted, height- and depth-adjustable
- Height adjustment by gas spring, with foot control at the base
- Round seats and backrest of synthetic leather
- Base of chrome-plated steel, with castors
