

ANALOG 60 Electronic Station, 60 W - Ersa 0ANA603

Item no.	ER-0ANA603	Manufacturer	Ersa
Manufacturer no.	0ANA603	EAN	4003008054873

60 W electronic supply station to complete the analogue ERSA ANALOG 60 soldering station (0ANA60). Provides the 24 V secondary voltage and a 150 to 450 °C temperature range. The mains cable 3K120KR053075 is not included in the scope of delivery.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Germany
ESD equipment	ESD Lötstationen
Execution	TEC
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The ERSA 60 W electronic station is the analogue power supply and control unit that completes the ERSA ANALOG 60 soldering station (0ANA60). It delivers the 24 V secondary voltage and regulates the soldering temperature across a range of 150 to 450 °C. The mains cable 3K120KR053075 is not included in the scope of delivery.

Technical data

Rated power	60 watts
Primary voltage	230 volts
Secondary voltage	24 volts
Temperature range	150 - 450 °C
Heat-up time	60 seconds
Digital display	No

Antistatic version No
RoHS compliant Yes
