### DESCRIPTION

The ERSADUR soldering tip 0162LD has a straight shape, bevelled at a 45° angle, with a tip width of 3.6 mm. It fits the Erska Multitip C15, Tip 260 and Sprint 860 soldering irons.

ERSADUR soldering tips are manufactured to a high standard and built for continuous operation. In a special galvanic process they are plated with an iron layer and protected against corrosion and oxidation by an additional chrome layer. The excellent heat transfer protects the heating element of the soldering iron from overheating and premature wear.
