DESCRIPTION

Permanent soldering tip, straight, chisel-shaped, 5 mm, with Ersadur-LF coating. Suitable for the HighPower-Tool soldering iron (0240CDJ) of the i-CON Vario HP soldering station in version 01CV2000HP.

Ersadur soldering tips are produced to a high standard and built for continuous operation. In a special galvanic process they are plated with an iron layer and protected against corrosion and oxidation by an additional chromium layer. Perfect heat transfer protects the heating element of the soldering iron from overheating and premature wear.
