DESCRIPTION

Desoldering tip set with a pencil-shaped tip (0.5 mm diameter), including heating element and with ERSADUR-LF coating. Suitable for the i-CON VARIO 2 and i-CON VARIO 4 stations with the Chip-Tool Vario (0460MDJ) desoldering tweezers.

ERSADUR soldering tips are produced to a high standard and built for continuous operation. In a special process they are electroplated with an iron layer and protected against corrosion and oxidation by an additional chrome layer. Perfect heat transfer protects the heating element of the iron from overheating and premature wear.
